

Gouldings Enhanced Nitrogen v nitrate

Objective:	Crop yield comparison between different N sources
Crop:	Winter Wheat
Location:	5 trial sites
Date:	2013 to 2015
Researcher:	Various independent trials contractors
Trial code:	13727, 14296, 14727, 15837 and 15355

Results:

N-types on 5 trial sites Winter Wheat comparing Goulding Enhanced Nitrogen against nitrate

Conclusions:

- ✓ Using GEN gave an average yield increase of 0.1t/ha
